Correction: Risk assessment score for adverse pregnancy outcome in systemic lupus erythematosus patients

Wafaa K. Makarm^{1*} , Rabab S. Zaghlol^{1,2} and Lobna I. Kotb¹

Correction: Egyptian Rheumatology and Rehabilitation 49, 33 (2022)

<https://doi.org/10.1186/s43166-022-00131-3>

Published online: 30 October 2023

Two errors were inadvertently introduced to the original article [1] during the implementation of the author's corrections:

In the Abstract, the sentence “Systemic lupus erythematosus (SLE) is a chronic autoimmune multisystem disease criteria for SLE according to the disease that mainly affects females of childbearing age.” should be corrected to “Systemic lupus erythematosus (SLE) is a chronic autoimmune multisystem disease that mainly affects females of childbearing age.”

In the Results section, the sentence “Adverse pregnancy outcomes were significantly increased in patients receiving Prednisone ≤ 20 mg per day” should be corrected to “Adverse pregnancy outcomes were significantly increased in patients receiving Prednisone ≥ 20 mg per day”.

The original article has already been revised as above.
